Keynote speakers:

Bradley Efron
Donald B. Rubin
Jianqing Fan

NEW: Chinese version
This conference will promote statistical research in China and encourage collaboration among statisticians across continents. This conference will focus on the statistical application in economics and biomedical research, as well as other fields of statistical theory and applications. Drs. Bradley Efron (Stanford), Donald B. Rubin (Harvard) and Jianqing Fan (Princeton) have agreed to be the keynote speakers.

Abstract submission is welcomed and encouraged (the deadline is June 1st 2011). Selected abstracts will be included for oral presentation. The rest will be presented as posters.

The registration fee is USD$200, RMB1320 (before June 15th 2011, USD$100, RMB300 for students and postdocs) The registration fee includes lunch and refreshment. Discounted onsite hotel accommodation rate has been negotiated.
