Experimental mean is 0.76982; mean square is 0.59825
Theoretical mean is 0.76980; mean square is ?
Experimental mean is 3.46157; mean square is 12.02205
Theoretical mean is 3.46155; mean square is ?
Product of area and perimeter:

Experimental mean is 2.67807; correlation is 0.89107

Experimental 4–sided probability is 0.46309

Theoretical 4–sided probability is ？

Experimental 6–sided probability is 0.47788

Theoretical 6–sided probability is ？

Experimental 8–sided probability is 0.05903

Theoretical 8–sided probability is ？
